High Performance 2-Way Radios

MID RANGE TWO-WAY RADIO

The MS-05 is a Mini Walkie Talkie pocket-sized communication device that combines portability with powerful performance. Engineered with a compact design, it easily fits in your palm or pocket, making it ideal for kids, travelers, retail staff, event coordinators, and outdoor enthusiasts. Despite its small size, it delivers crystal-clear audio, up to 0.5–1 km range in open areas, and long-lasting battery life for uninterrupted communication. Simple push-to-talk functionality, lightweight construction, and durable casing ensure ease of use and reliability. With no complicated setup and license-free operation, the mini walkie talkie is the perfect solution for quick, clear, and affordable communication on the go.

PERFECT FOR ADVENTURE & UTILITIES

The **KANIB MS-05** walkie talkies long range is convenient for road trips, traveling, camping, hiking, fishing, and hunting. Its long-range VOX and PTT earpiece for free communication make it easy to communicate with each unit in your group. Whether you're exploring the outdoors or coordinating a team, this radio is a really convenient companion

Why KANIB ?

Kanib Communication Systems is a trusted name in the field of two-way radio accessories, proudly serving customers across India. Based in Delhi and Rajasthan, we specialize in manufacturing of handheld radios, mobile radios, repeaters, antennas, batteries, earphones, chargers, and high-quality, reliable, and durable accessories that are fully compatible with leading global radio brands including Motorola, Kenwood, Icom, HYT, Vertel, Vertex, Kanib, Keneard and Kyoden.

Also we are Authorized Channel partner for **Keneard USA** and **Kyoden Japan**.

KYODEN – A premier Japanese 2-Way Radio brand, operating as a subsidiary of Japan Radio Co., Ltd. (JRC), and also involved in PCB manufacturing for its parent organization.

KENEARD – Following the success of the Mag One series, Motorola Solutions has developed a new series for the South Asian market, designed to deliver durable and cost-effective two-way radios.

With 30 years of expertise in the communication industry, Kanib has built a reputation for delivering innovative solutions that enhance performance, usability, and convenience. Our wide product range includes batteries, chargers, antennas, earpieces, microphones, and carrying solutions, designed to meet the demanding needs of professionals across industries such as public safety, security, defense, construction, hospitality, logistics, and events. Our Rajasthan factory covers an area of over 5000 square meters and has more than 50 employees, which can meet the needs of a growing customer base.

Our Head Office in Delhi is conveniently located with a nearby warehouse for easy transportation. We welcome new buyers, Dealers and distributors to visit us.
